**SCREENING AND INCLUSION**

**Title Screening**

Potential MDA Study? |

**Abstract Screening**

Potential MDA Study? |

**Full Article Abstraction**

Study inclusion criteria for mass drug administration:

Therapeutic dose of antimalarials given: |

Drug given to an entire population or well-defined subpopulation: |

Drug administered in a coordinated fashion: |

Drug administered without prior diagnostic testing or screening: |

Population resides in a malaria endemic area pre and post MDA: |

Study inclusion criteria based on study design:

Reported estimates of at least one outcome of interest: |

Not individually randomized trial: |

Not IPTp or IPTi: |

Study included:

Study meets all inclusion criteria: |

If yes, continue with data abstraction

If no, describe reason for exclusion:

**Characteristics of excluded studies:**

**Notes:**
